EXHIBIT

Coram PACEY's annual childcare and early years conference

The power of home-based childcare

Building on the success of our inaugural conference, Coram PACEY is back at the iconic Bishopsgate Institute, London on Saturday 28 February 2026 for our annual Childcare and early years conference.

Themed around 'The power of home-based childcare', this event aims to develop professionals' knowledge on topics including early childhood development, SEND / ALN, inclusion and growing their childcare businesses. We will be providing support in key areas of their business including entitlement funding, inspection changes and protecting their business.

We are looking for companies that sell early years products and services to exhibit at our conference in the exhibition space in the Upper Hall. Childminders, nannies and other home-based childcare professionals love to shop and the feedback from our last conference is that they want to see even more exhibition stands to purchase products for their childcare businesses.

If you would like the opportunity to promote your business and sell products to over 150 professionals then why not exhibit with us?
