The childcare and early years conference sponsorship opportunities

Building on the success of our conferences, Coram PACEY is back at the iconic Bishopsgate Institute, London on Saturday 6 February 2027 for our annual Childcare and early years conference.

This event aims to develop professionals' knowledge on topics including early childhood development, SEND, inclusion and growing their childcare businesses. We will be providing support in key areas of their business including entitlement funding, inspection changes and protecting their business.

This is a key opportunity to come together to celebrate the importance of home-based childcare for children and families and it's role within the sector. We are looking for partners who share our values and want to support us on the journey to reverse the decline in home-based childcare professionals.

We are asking for support from partners to help put on this event and allow us to make this day worth remembering for all of the home-based childcare professionals who provide quality childcare and education for our children. We have a number of sponsorship packages below but we are also happy to have conversations to see how we can better tailor those packages to your requirements.
